The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply						
A SHORTENED STATUTORY PERIOD FOR REPLY WHICHEVER IS LONGER, FROM THE MAILING DA - Extensions of time may be available under the provisions of 37 CFR 1.13 after SIX (6) MONTHS from the mailing date of this communication. - If NO period for reply is specified above, the maximum statutory period w - Failure to reply within the set or extended period for reply will, by statute, Any reply received by the Office later than three months after the mailing earned patent term adjustment. See 37 CFR 1.704(b).	ATE OF THIS COMMUNICATION 36(a). In no event, however, may a reply be tim vill apply and will expire SIX (6) MONTHS from to cause the application to become ABANDONED	l. ely filed the mailing date of this communication. O (35 U.S.C. § 133).				
Status						
1) Responsive to communication(s) filed on 22 Se	eptember 2005.					
	action is non-final.					
3) Since this application is in condition for allowar	☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is					
closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.						
Disposition of Claims						
4)⊠ Claim(s) <u>19-30</u> is/are pending in the application.						
4a) Of the above claim(s) is/are withdrawn from consideration.						
5) Claim(s) is/are allowed.						
6)⊠ Claim(s) <u>19-30</u> is/are rejected.						
7) Claim(s) is/are objected to.	7) Claim(s) is/are objected to.					
8) Claim(s) are subject to restriction and/or	r election requirement.					
Application Papers						
9) The specification is objected to by the Examiner.						
10) ☐ The drawing(s) filed on is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.						
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).						
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).						
11) The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.						
Priority under 35 U.S.C. § 119						
 12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f). a) All b) Some * c) None of: 1. Certified copies of the priority documents have been received. 2. Certified copies of the priority documents have been received in Application No 3. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)). * See the attached detailed Office action for a list of the certified copies not received. 						
Attachment(s) 1) Notice of References Cited (PTO-892) 2) Notice of Draftsperson's Patent Drawing Review (PTO-948) 3) Information Disclosure Statement(s) (PTO-1449 or PTO/SB/08) Paper No(s)/Mail Date	4) Interview Summary Paper No(s)/Mail Da 5) Notice of Informal P 6) Other:					

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 19-30 are rejected under 35 U.S.C. 102(e) as being anticipated by Ha et al. (US 2004/0166604 A1).

In re claim 19, Ha (esp. Fig. 7) discloses a method of operating an electronic device, said device comprising a phase change material and three terminals in electrical communication therewith, said method comprising the steps of:

applying a first signal between a first pair (79a' and 107a) of said terminals of said device; and

applying a second signal between a second pair (79b' and 107a) of said terminals of said device.

In re claim 20, Ha discloses the method of claim 19, wherein one of said first and second signals is an amorphizing signal (pp. 3, section [0039], lines 11-18).

In re claim 21, Ha discloses the method of claim 19, forms a resistively shielding amorphous region.

Application/Control Number: 10/761,022

Art Unit: 2815

In re claim 22, Ha discloses the method of claim 19, wherein one of said first and second signals is a crystallizing signal (pp. 3, section [0039], lines 11-18).

In re claim 23, Ha discloses the method of claim, removes a resistively shielding amorphous region.

In re claim 24, Ha discloses the method of claim 19, wherein said first and second signals are electrical signals (pp. 3, section [0039], line 16).

In re claim 25, Ha discloses the method of claim 24, wherein said electrical signals are current pulses (pp. 3, section [0039], line 16).

In re claim 26, Ha discloses the method of claim 19, wherein the first signal modifies the resistance measured between said first pair of terminals.

In re claim 27, Ha discloses the method of claim 26, wherein said first signal does not substantially change the resistance measured between said second pair of terminals.

In re claim 28, Ha discloses the method of claim 26, wherein said second signal modifies the resistance measured between said second pair of terminals.

In re claim 29, Ha discloses the method of claim 19, further comprising the step of measuring the resistance between a third pair of said terminals (pp. 1, section [0008]).

In re claim 30, Ha discloses the method of claim 19, further comprising the step of measuring the current between a third pair of terminals (pp. 1, section [0008]).

Art Unit: 2815

Conclusion
